

# SCOPE FIELD DAY

September 7, 2023 8:30-11:00 am

Learn about student-led plant breeding for organic systems

Screen-printing and snacks (BYO shirt or tote bag)

8:30 AM

Welcome and introduction to SCOPE

9:00 AM

Zinnia and tomato breeding updates

9:20 AM

Open field tour, harvest, and Q&A

10:00 AM

Bean & celtuce breeding updates

10:20 AM

Milling demo and wheat breeding updates

10:30 AM

Tomato taste test

10:40 AM

Closing remarks

11:00 AM

You're invited to join Student Collaborative Organic Plant Breeding Education for a field tour and talk from our lead student breeders of organic fresh market tomatoes, zinnias, beans, wheat, and celtuce. We'll wrap up the event with a demonstration how to stone mill wheat and a tomato taste test. All are welcome, whether you're a student, farmer, researcher, or just interested in plants!

BYO shirt or tote bag at 8:30 am to screen print the SCOPE logo onto!
